DETAILED ACTION

Status of Claims

Claims 1-59 are pending.

This is in response to applicant's amendment filed 01/17/06.

Information Disclosure Statement

Receipt of the Information Disclosure Statement filed 01/17/06 is acknowledged and has been entered into the file. A signed copy of the 1449 is attached herewith.

Claim Rejections - 35 USC § 112

The rejection of claims 1, 43, 45 and 46 under 35 U.S.C 112, first paragraph and claims 1 and 43 under 112, second paragraph have been withdrawn in view of the amendment filed 01/17/06.

Double Patenting

The rejection of claims 1-10 and 16-34 under 35 U.S.C. 101 is hereby withdrawn.

However, the following rejection is being maintained for the reasons of record.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1626

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 54 and 59 remain provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 43 and 48 of copending Application No. 10/662,745 ('745') for the reasons set forth in the office action mailed on 08/26/05.

Response to Amendment

Applicant's arguments filed 01/17/06 have been fully considered but they are not deemed persuasive. Applicants argue that the provisional obviousness-type double patenting rejection of record is unwarranted because the two co-pending applications were filed the same day. Contrary to applicant's assertion, a Terminal Disclaimer is needed to overcome the rejection of record because each of the applications could be assigned to different corporations or individuals in its entirety i.e., the ownership of the patent can change. Additionally, there is no rule, which prevents applicants from filing a Terminal Disclaimer to obviate an obviousness-type double patenting rejection when two pending applications are filed the same day.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1626

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
